CAREER OBJECTIVE

Cybersecurity student pursuing B.Tech in Computer Science and Engineering (Cybersecurity) with hands-on experience in network analysis, system enumeration, penetration testing concepts, cloud security, and cybersecurity automation. Skilled in Python, Linux, Windows internals, and security research. Seeking a Cybersecurity Internship to apply technical expertise and gain practical industry experience.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering (Cybersecurity)
Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya (SCSVMV)
Expected Graduation: 2028

TECHNICAL SKILLS

Programming & Scripting: Python, C Programming, Automation Scripting
Operating Systems: Linux, Windows
Cybersecurity: Ethical Hacking, Vulnerability Assessment, Security Research, Network Security, Cloud Security, Risk Assessment, Security Monitoring
Networking: TCP/IP, DNS, HTTP/HTTPS, Network Analysis
Tools & Technologies: AWS, Git, GitHub, WMI, Windows APIs, Linux Kernel Programming

CYBERSECURITY RESEARCH & PRACTICAL EXPERIENCE

Designed and implemented multiple cybersecurity and networking projects using Python, Linux, and Windows APIs. Conducted security research involving system enumeration, network analysis, anonymity tools, and cybersecurity automation. Explored penetration testing methodologies and vulnerability assessment techniques. Applied cloud security and risk management concepts through AWS learning and hands-on experimentation.

PROJECTS

Net-Strike; Tor IP Changer; User-Info; Linux Kernel Keylogger; WMI Query Tool; Rubber Ducky
Bad USB Research

CERTIFICATIONS

AWS Cloud Certification, Cybersecurity Fundamentals, Network Security, Ethical Hacking, Python Programming, Cloud Security, Linux Security & Administration

AREAS OF INTEREST

Cybersecurity Operations, Security Research, Threat Analysis, Cloud Security, Network Security, Ethical Hacking, Digital Forensics, Security Automation, Vulnerability Management
